### Web-based Projects

1. **Daily Diet Score™** ([www.dailydietscore.com](http://www.dailydietscore.com); online May 4, 2006). This is a rationally-designed nonoperative weight-reduction method, which I have made freely available on the internet. The method is essentially a “meta-diet,” composed of a combination of weight-reduction techniques; each technique employed has previous documentation of efficacy.
2. **Nebraska Surgical Research** ([www.nebraskasurgicalresearch.com](http://www.nebraskasurgicalresearch.com); online January 1, 2010). This web site provides information on my clinical and basic research interests and my clinical

practice. There also are links to pdf files of my publications, presentations, inventions, CV, and so forth.
