<b>I. THYROID GLAND</b>		
1. Minimally Invasive Video-Assisted Thyroidectomy	000	
Paolo Miccoli, Carlo Enrico Ambrosini, and Gabriele Materazzi		
<b>II. THORAX</b>		
2. Thoracoscopic Lung Resections	000	
Rudy P. Lackner		
3. Bilateral Thoracoscopic Splanchnotomy for Intractable Upper Abdominal Pain	000	
Basil J. Ammori and Georgios D. Ayiomamitis		
<b>III. ESOPHAGUS</b>		
4. Minimally Invasive Ivor Lewis Esophagectomy	000	
Lawrence Crist, Benny Weksler, Shannon L. Wyszomierski, and James D. Luketich		
5. Laparoscopic Esophagomyotomy with Nissen Fundoplication	000	
Constantine T. Frantzides, Scott N. Welle, Minh B. Luu, and Andrew M. Popoff		
6. Laparoscopic Esophageal Mucosal Resection for High-Grade Dysplasia	000	
Constantine T. Frantzides, Scott N. Welle, Jacob E. Roberts, and Timothy M. Ruff		
7. Laparoscopic Revision of Failed Fundoplication and Hiatal Hernia	000	
Stavros A. Antoniou, Rudolph Pointner, and Frank A. Granderath		
<b>IV. STOMACH</b>		
8. Revisional Bariatric Surgery	000	
Constantine T. Frantzides, John G. Zografakis, Scott N. Welle, and Timothy M. Ruff		
9. Laparoscopic Totally Hand-Sutured Roux-en-Y Gastric Bypass for the Treatment of Morbid Obesity	000	
Basil J. Ammori and Georgios D. Ayiomamitis		
10. Laparoscopic Roux-en-Y Gastric Bypass with Medial Rotation of the Left Hepatic Lobe	000	
George Ferzli, Sean Rim, and Michael F. Timoney		
11. Laparoscopy-Assisted Distal Gastrectomy for Cancer	000	
Seigo Kitano, Yohei Kono, and Norio Shiraishi		
12. Laparoscopic Repair of Perforated Peptic Ulcer	000	
Dennis C. T. Wong		
<b>V. HEPATOBILIARY SYSTEM</b>		
13. Laparoscopic Single-Site Cholecystectomy	000	
Alexander Rosemurgy, Harold Paul, Natalie Donn, Kenneth Luberice, Michelle Vice, and Sharona Ross		
14. Natural Orifice Transluminal Endoscopic Cholecystectomy	000	
Eric S. Hungness and Nathaniel J. Soper		
15. Laparoscopic Radical Cholecystectomy	000	
Veeraiah Siripurapu, Tzu-Jung Tsai, Pavlos Papavasiliou, and Andrew A. Gumbs		
16. Laparoscopic Cholecystectomy for Acute Cholecystitis	000	
Wan Yee Lau, Eric C. H. Lai, and Stephanie Hiu Yan Lau		
17. Laparoscopic Liver Resection	000	
Robert C. G. Martin, Charles R. St. Hill, and Russell E. Brown		
<b>VI. PANCREAS AND SPLEEN</b>		
18. Laparoscopic Pancreatoduodenectomy	000	
Basil J. Ammori and Georgios D. Ayiomamitis		
19. Laparoscopic Cholecystojejunostomy	000	
Basil J. Ammori and Georgios D. Ayiomamitis		
20. Laparoscopic Management of Pancreatic Pseudocysts	000	
Basil J. Ammori and Georgios D. Ayiomamitis		

21. Minimally Invasive Splenectomy for Massive Splenomegaly Marco Casaccia	000	33. Minimally Invasive Radical Prostatectomy Chad A. LaGrange	000
<b>VII. SMALL INTESTINE</b>		34. Minimally Invasive Retroperitoneal Adrenalectomy Jovenel Cherenfant, Tricia Moo-Young, and Richard A. Prinz	000
22. Challenging Cases of Laparoscopic Enterectomy for Benign and Malignant Diseases of the Small Intestine Constantine T. Frantzides, Minh B. Luu, Scott N. Welle, and Paul R. Balash	000	<b>XI. UTERUS AND ADNEXA</b>	
23. Laparoscopic Management of Acute Small Bowel Obstruction Boris Kirshtein	000	35. Laparoscopic Pelvic and Aortic Lymphadenectomy for Gynecologic Malignancy Denis Querleu and Kris Jardon	000
<b>VIII. COLON AND RECTUM</b>		36. Laparoscopic Hysterectomy for Benign Conditions Oz Harmanli	000
24. Laparoscopic Reversal of the Hartmann Procedure Linda P. Zhang, Scott Q. Nguyen, and Celia M. Divino	000	37. Laparoscopic Myomectomy Omella Sizzi, Alfonso Rossetti, and Alessandro Loddo	000
25. Laparoscopic Colectomy for Diverticulitis Constantine T. Frantzides, Scott N. Welle, and Timothy M. Ruff	000	38. Robot-Assisted Tubal Anastomosis Sejal Dharia Patel, Nora Alghothani, and Olga A. Tusheva	000
26. Minimally Invasive Low Anterior Resection with Total Mesorectal Excision for Malignancy Mark A. Carlson	000	<b>XII. PEDIATRICS</b>	
27. Lateral Decubitus Approach to Minimally Invasive Low Anterior Resection George S. Ferzli, Michael F. Timoney, and Sean Rim	000	39. Minimally Invasive Pediatric Procedures Shahab F. Abdessalam, Kenneth S. Azarow, Robert A. Cusick, Stephen C. Raynor, and Adam S. Gorra	000
<b>IX. HERNIA</b>		<b>XIII. GENERAL TOPICS</b>	
28. Minimally Invasive Ventral Hernia Repair with Endoscopic Component Separation Michael J. Rosen	000	40. Complications of First Entry into the Peritoneal Cavity Mark A. Carlson	000
29. Laparoscopic Repair of Complex Scrotal Hernia Constantine T. Frantzides, Scott N. Welle, and Timothy M. Ruff	000	41. Radiology of Minimally Invasive Abdominal Surgery Richard M. Gore, Marc S. Levine, Kiran H. Thakrar, Geraldine M. Newmark, Uday K. Mehta, and Jonathan W. Berlin	000
30. Laparoscopic Mesh Repair of Parastomal Hernia Constantine T. Frantzides, Jacob E. Roberts, Scott N. Welle, and Tallal M. Zeni	000	42. Surgical Robotics Elizabeth M. Schmidt, Robert E. S. Bowen, and Dmitry Oleynikov	000
<b>X. URINARY SYSTEM AND ADRENAL GLANDS</b>		43. New Minimally Invasive Surgery Technologies Timothy M. Ruff, Constantine T. Frantzides, and Alexander T. Frantzides	000
31. Video-Assisted Minilaparotomy Surgery (VAMS) for Living Donor Nephrectomy Woong Kyu Han and Seung Choul Yang	000	<b>Index</b>	000
32. Laparoscopic Partial Nephrectomy Quoc-Dien Trinh, Jesse D. Sammon, and Kevin C. Zorn	000
